

Polytron Performance Gasoline / Diesel Fuel Conditioner

Product Description

POLYTRON Ultra Performance Fuel Conditioner (FC) is scientifically designed fuel enhancer that improves combustion, cleans and lubricates the working parts of the fuel system and the upper part of the engine. POLYTRON Fuel Conditioner dissolves and removes carbon deposits and prevents future harmful build-up. POLYTRON Fuel Conditioner improves mileage and overall engine performance.

It cleans the entire fuel system, including injectors, intake valves, ports, valve seats, valve skirts and combustion chamber. When Polytron Fuel Conditioner is used regularly, exhaust pollutants are reduced considerably. POLYTRON Fuel Conditioner extends the effective life of diesel fuel held in storage tanks and can be used with any gasoline or diesel fuel.

Why Choose Polytron

- ✓ Maximizes mileage & performance.
- ✓ Maximizes power & compression.
- ✓ Cleans entire fuel system including injectors, intake valves, ports, valve seats, valve skirts and combustion chamber.
- ✓ Provides quicker starting in cold weather.
- ✓ Provides lubrication to moving parts of fuel system and combustion chamber resulting in extending their service life by up to 100%.
- ✓ Removes water in fuel tank and lines.
- ✓ Neutralizes poor quality fuel.
- ✓ Reduces emission pollutants by up to 60%.

Applications

All diesel and gasoline engines including:

- Trucks
- Automobiles
- Tractors
- Irrigation
- Pumps
- Oil field equipment
- Marine engine
- Railroad engines

Size 1

- 354 ml (12 oz)

Size 2

- 4 Lit (1.057 Gallon)

Size 3

- 19 Lit (5 Gallon)

Size 4

- 208 Lit (55 Gallon)

Typical Test Data

Available upon request
